Share Your Story and Point To Jesus

Montana Tech is an amazing and strategic place to point people to the Savior and make disciples! Within our student leader team of 18, we have 5 "round tables" tasked with different areas of ministry to **keep our team focused on mission**. One of those round tables recently cast vision for a night dedicated to sharing stories of how Jesus is impacting lives so others could hear how God has changed lives. **To speak of how Jesus is changing you is a powerful witnessing tool!** Imagine being in a room full of your peers, your heart pounding, as the Holy Spirit encourages you to share your testimony! Thirteen students ended up sharing stories of how Jesus was shaping their life! **Will you join students at Tech by sharing how Jesus has saved and changed your life with those around you?**

Malachi and some of our amazing student leaders preparing for a night of testimony, food, and worship!

"Come, let us worship and bow down. Let us kneel before the LORD our maker".
Psalm 95:6

Is Chi Alpha Making The Church Stronger?

I, Titus, am convinced we are! When I look around our worship service and see a future engineer or nurse bowing in worship during our main meeting, or when I see students pouring so much time into planning and preparing to lead their small groups each week, I'm filled with gratitude for what this means for Christ's witness in this generation.

Please pray for us as we continue shaping a culture of worship—a culture that inspires others to **humbly bow before our King**, that **adores God**, and that **offers every part of who we are for His glory**.

Pray that many more would **kneel alongside us in reverence for the King of Kings**. May salvation continue to impact the campus God has called us to love! Thank you for helping us stay on mission and reach college students through a community committed to prayer, worship, fellowship, discipleship, and mission.

CHI ALPHA FRIENDSGIVING.

Bergren Family Update

We pray peace and joy over you as this letter reaches your home. This year has been full of both heartache and celebration. January began with honoring the life of Jacqueline's sister, Michele. We've felt her absence in countless ways, yet her unwavering faith continues to shape our own, even now.

Tirzah and Jackie brought in the New Year in New Jersey (Maddie Toll's home state) and adventured through New York with Maddie, our former Chi Alpha student who has become a member of our family. March brought excitement as Isaiah proposed to Mylo, and in May, Titus led a team of MT Tech Chi Alpha students —joined by Isaiah, Mylo, and Tirzah—on a missions trip to El Salvador. We love El Salvador and it's people as well as missionaries Kenton and Eunice Moody. A few weeks later Tirzah graduated high school and prepared for YWAM (Youth With A Mission). August arrived with two very special celebrations: on the 1st, Isaiah married his beautiful bride, adding a lovely new daughter to our family; and on the 5th, we marked 25 years of marriage. The end of September, Jacqueline traveled with Tirzah to Hawaii for YWAM. What began as a practical trip became an unforgettable journey, shared first with treasured friends, Lindsey and Bria, and later with Titus for a long-awaited anniversary getaway. It was a gift to reconnect, rest, and be wowed by the beauty and goodness of God.

Isaiah and Mylo are currently living in Kalispell with plans to move to Butte this spring. Isaiah will continue taking his classes on-line through Northwest University and plans to graduate in the spring of 2027. Mylo is currently a well loved nanny and will have a hard time saying good-bye to the families and kiddos she has grown to love. Tirzah is just getting ready to begin her outreach portion with YWAM. Her outreach team will be bringing the Gospel to the native people of Hawaii on three different islands. Pray strength and safety for her as well as open doors to share Jesus everywhere she goes. She is expected home early March. Micah, at 15, is living his creative dreams and even earning money on YouTube. Selah, 10, has taken up crocheting and still twirls happily through ballet. Hannah, 9, is thriving as she learns hands-on skills and continues her Irish dance journey. Neriah, 8, is her happiest with a book in hand or enjoying free play. She began Tae Kwon Do this year and has gained so much strength and confidence.

As 2025 comes to a close, our prayer is simple: that you would encounter God's love in tangible ways and experience His presence in a world that can feel upside down. But take heart! He has overcome the world! We wish you a Merry Christmas and blessed 2026. With much love and appreciation from all of us!
